Safe Drinking Water and Toxic Enforcement Act of 1986 California Proposition 65

The Safe Drinking Water and Toxic Enforcement Act of 1986, also known by its original name of Proposition 65, requires clear and reasonable warning for chemicals known to the State of California to cause cancer or reproductive toxicity. The list of substances now includes more than 800 chemicals after the most recent update.

There is some disagreement in our industry as to whether California Prop 65 is applicable. Given the nature of our raw materials and products, it is our position that Prop 65 is relevant and in order to comply with the regulations we will be affixing a Prop 65 warning on all of our products. Ultimately, we believe this decision is in the best interests of our company as well as our distributors and retail partners.

Below is the link to the most recent list for substances identified by Prop 65:

<https://oehha.ca.gov/proposition-65/proposition-65-list>

If you have any questions or concerns, please feel free to contact us.

WARNING:

This product can potentially expose you to chemicals including lead, nickel and chromium which are known to the State of California to cause cancer and birth defects or other reproductive harm. **For more information go to www.P65Warnings.ca.gov**

Sincerely,

AMPG Quality Team
